

Schweizerischer Verband für
UNNELT TECHNIK

The **Swiss Association for Environmental Technology (SVUT)** is committed to the development of safe and future-oriented environmental, energy, resource efficiency and waste and water management. We are the most important business association of the environmental technology industry in Switzerland.

We are happy to share with all interested Eurasian partners our experience, our Know How and business relations.

We wish a successful and fruitful congress and business relations.

Sincerely, yours

Beat Huber
President SVUT
